# FINANCIAL SECTION

This section contains the following subsections:

INDEPENDENT AUDITORS' REPORT MANAGEMENT'S DISCUSSION AND ANALYSIS BASIC FINANCIAL STATEMENTS NOTES TO BASIC FINANCIAL STATEMENTS REQUIRED SUPPLEMENTARY INFORMATION OTHER SUPPLEMENTARY INFORMATION

### **Independent Auditors' Report**

The Honorable President and Members of City Council City of Pawtucket, Rhode Island Pawtucket, Rhode Island

### **Report on the Financial Statements**

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Pawtucket, Rhode Island (the City) as of and for the year ended June 30, 2014, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the City's discretely presented component unit, the Pawtucket Business Development Corporation (PBDC), which represents less than 3% of the assets, net position, and revenues of the City. Those statements were audited by other auditors whose report has been furnished to us, and our opinion, insofar as it relates to amounts included for PBDC, is based on the report of the other auditors. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

The Honorable President and Members of City Council City of Pawtucket, Rhode Island

### Auditors' Responsibility (Continued)

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinions**

In our opinion, based on our audit and the report of other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Pawtucket, Rhode Island as of June 30, 2014, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

### **Emphasis of Matters**

As discussed in Note 1 to the financial statements, for the year ended June 30, 2014, the City adopted new accounting guidance affecting the accounting for bond issuance costs and the reporting of deferred inflows and outflows of resources. Due to the adoption of this guidance, the City restated its 2013 financial statements, resulting in a decrease in net position of \$2,526,924 at July 1, 2013. The City also adopted new accounting guidance requiring additional disclosures regarding certain pension plans. Our opinion is not modified with respect to these matters.

### **Other Matters**

### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis on pages 4 through 18 and budgetary comparison schedules and historical pension and other postemployment benefits information on pages 84 through 98 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

### **Independent Auditors' Report (Continued)**

The Honorable President and Members of City Council City of Pawtucket, Rhode Island

### **Other Matters (Continued)**

### **Other Information**

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The other supplementary information and statistical section as listed in the table of contents and the schedule of expenditures of federal awards and notes thereto are presented for purposes of additional analysis and are not a required part of the basic financial statements. The other supplementary information and statistical section as listed in the table of contents and the schedule of expenditures of federal awards and notes thereto are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information referred to in this paragraph is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

### Other Reporting Required by Government Auditing Standards

In accordance with <u>Government Auditing Standards</u>, we have also issued our report dated January 7, 2015 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with <u>Government Auditing Standards</u> in considering the City's internal control over financial reporting and compliance.

LGCEN LLP

Providence, Rhode Island January 7, 2015

### MANAGEMENT'S DISCUSSION AND ANALYSIS

Our discussion and analysis of the City of Pawtucket, Rhode Island's (the City) financial performance provides an overview of the City's financial activities for the fiscal year ended June 30, 2014 (FY14). This discussion and analysis should be read in conjunction with the City's financial statements that follow this section.

# Financial Highlights

- The City's government-wide net position decreased by \$524,136 as a result of this year's operations. On a government-wide basis, the City's assets and deferred outflows exceeded its liabilities at the close of the most recent fiscal year by \$23,660,108. The net position of the business-type activities increased by \$3,283,111, or 4%, while net position of the governmental activities decreased by \$3,807,247, or 7%. It should be noted the majority of this decrease is due to the current period increase in the amount of \$4,958,720 in the other postemployment benefits liability and the increase in the amount of \$2,031,433 in the net pension obligation.
- The City's government-wide operating expenses were \$235,702,440, a 3% increase from the prior year, while revenues collected were \$235,178,304, a 2% increase from the prior year.
- As of the close of the fiscal year, the City's governmental funds reported combined ending fund balances of \$13,366,338.
- At the end of the current fiscal year, the general fund unassigned fund balance was \$10,743,862, or 14% of the total general fund expenditures for the fiscal year. The current fiscal year's general fund revenues and transfers in exceeded expenditures and transfers out by \$4,820,899. On a budgetary basis, the general fund revenues and transfers in exceeded expenditures and transfers out by \$4,421,880.
- Effective for the fiscal year ended June 30, 2014, the City adopted the provisions of Statement No. 65 of the Governmental Accounting Standards Board, *Items Previously Reported as Assets and Liabilities* (GASB 65). GASB 65 requires that certain items no longer be reported in statements of net position since they do not meet the definition of either assets, liabilities, deferred outflows of resources, or deferred inflows of resources. In addition, GASB 65 requires that certain items previously reported as assets or liabilities be reported as deferred inflows or outflows of resources. As required by GASB 65, effective July 1, 2013, financing costs are expensed as incurred; previously, financing costs were deferred and amortized using the straight-line method over the life of the related debt. Due to the adoption of GASB 65, the City has restated its 2013 financial statements, resulting in a \$2,526,924 decrease in net position at July 1, 2013, as reported in the accompanying statement of activities. For 2014, the adoption of GASB 65 resulted in an increase in net position of \$154,877.

### **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. These basic financial statements consist of three components:

- Government-wide financial statements
- Fund financial statements
- Notes to financial statements

In addition to the basic financial statements, this report also contains required and other supplementary information.

The City's basic financial statements and supplementary financial information provide information about all of the City's activities. They provide both a short-term and a long-term view of the City's financial health as well as information about activities for which the City acts solely as a trustee for the benefit of those outside of the City's government.

**Government-wide financial statements** - are designed to provide readers with a broad overview of the City's finances in a manner which is similar to a private-sector business. They are presented on the accrual basis of accounting where revenues and expenditures are recognized on the date they occurred rather than on the date they were collected or paid.

The *Statement of Net Position* presents information on all of the City's assets and deferred outflows of resources, and liabilities and deferred inflows of resources, with the difference between the two reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The *Statement of Activities* presents information which shows how the City's net position changed during the fiscal year. All changes in net position are reported when the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods. Examples are uncollected taxes and earned but unused compensated absences.

Both of the government-wide financial statements distinguish functions of the City which are supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The City's governmental activities include legislative, executive, finance, planning, public safety, public works and education. The City's business-type activities include principally water operations.

The government-wide financial statements are reported on pages 19 and 20.

**Fund financial statements** - A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

**Governmental funds** - Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on current sources and uses of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The City maintains approximately 255 individual governmental funds. Information is presented separately in the Governmental Funds Balance Sheet and in the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund and School Unrestricted Fund, which are considered to be major funds. Data from the other funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of combining statements elsewhere in this report.

The governmental funds financial statements are presented on pages 21 through 24.

The City adopts an annual budget for its General Fund and for its School Unrestricted Fund. Budgetary comparison statements have been provided for these funds to demonstrate compliance with this budget.

**Proprietary funds** - The City's proprietary funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City has three enterprise funds: the Pawtucket Water Supply Board (PWSB), which accounts for the City's water system; 175 Main Street, which is an office building; and the School Lunch Fund, which accounts for lunch operations at all the schools. Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses an internal service fund to account for health and dental benefits. Because these services predominately benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements.

**Proprietary funds (continued)** - Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the Pawtucket Water Supply Board since it is considered to be a major fund of the City. The internal service fund financial statement provides information for health and dental plan benefits.

The basic proprietary fund financial statements are presented on pages 25 through 28.

**Fiduciary funds** - Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

The fiduciary funds financial statements can be found on pages 29 and 30.

**Notes to financial statements** - The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to the financial statements are presented on pages 31 through 83.

**Other information** - In addition to the basic financial statements and accompanying notes, this report also presents certain supplementary information pertinent to the City's operations. Required Supplementary information is presented on pages 84 through 98.

The combining statements referred to earlier in connection with nonmajor governmental funds are presented on pages 99 through 164.

The Agency funds are presented on page 165.

### Government-wide financial analysis

### Analysis of the City's net position

As noted earlier, net position may serve over time as a useful indicator of a government's financial position and an important determinant of its ability to finance services in the future. The City's governmental activities net deficit position totaled (\$55,173,191) as of June 30, 2014, an increase of \$3,807,247 from the previous year.

### **Government-wide financial analysis (continued)**

### Analysis of the City's net position (continued)

Total net position	\$ (55,173,191)	\$ 78,833,299	\$ 23,660,108	\$ (51,365,944)	\$ 75,550,188	\$ 24,184,244

Listed below is a comparison of the current and prior fiscal years.

As discussed in Note 1 to the financial statements and the previous financial highlights section, the City restated its 2013 financial statements to reflect the adoption of GASB 65.

The largest portion of the City's net position, \$160,223,365, consists of its investment in capital assets such as land, construction in progress, buildings and improvements, motor vehicles, furniture and equipment and infrastructure, less any outstanding debt used to acquire these assets. The City uses these capital assets to provide services to its citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves are unlikely to be used to liquidate these liabilities. An additional portion of the City's net position, totaling \$28,179,105, represents resources that are subject to external restriction on how they may be used. The remaining balance of unrestricted net position may be used to meet the government's ongoing obligations to its citizens and creditors. As of June 30, 2014, the City of Pawtucket reports positive balances in two of three categories of net position for the government as a whole.

### Analysis of the City's operations

Governmental activities decreased the City's net position by \$3,807,247 for the current period, a 7% decrease in the City's governmental net position, while business-type activities increased the City's net position by \$3,283,111 for the current period, a 4% increase in the business-type activities net position. Overall, the City's net position decreased \$524,136, which is a 2% decrease from the prior year.

### Analysis of the City's operations (continued)

Amounts reported for governmental activities in the statement of activities are different from the amounts reported as fund expenditures. See page 24 for the Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities for a detailed explanation of these differences.

The following schedule presents the changes in net position for the current and prior years.

					2013

### Financial analysis of the City's funds

**Governmental funds** - The focus of the City of Pawtucket's governmental funds is to provide information on near-term inflows, outflows and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, the unassigned fund balance may serve as a useful measure of the City's net resources available for spending at the end of the fiscal year.

At the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$13,366,338. Of this amount, \$2,835,031 constitutes net unassigned fund balance. The remainder of the fund balance is classified as follows:

Nonspendable:	
Perpetual care and endowment permanent funds	\$ 1,115,809
Prepaid items	59,637
1	
Total nonspendable fund balance	1,175,446
Restricted:	
Restricted for City special revenue funds	1,759,047
Restricted for HUD special revenue funds	854,152
Restricted for school special revenue funds	202,847
Restricted for capital projects funds	1,288,638
Total restricted fund balance	4,104,684
Committee la	
Committed:	700.000
Committed for charter reserve	700,000
Committed for school's deficit reduction	511,461
Committed for City special revenue funds	1,411,133
Total committed fund balance	2,622,594
Assigned:	0.010.000
Assigned for medical reservation	2,018,399
Assigned for revaluation	437,001
Assigned for snow removal	150,000
Assigned for City special revenue funds	23,183
	2,628,583
Total	\$10,531,307

**Proprietary funds** - The City's proprietary fund financial statements provide the same type of information as business-type activities in the government-wide financial statements, but in more detail.

Total unrestricted net position of the proprietary funds is \$343,090.

### General Fund budgetary highlights for the fiscal year ended June 30, 2014

### **REVENUE:**

**Real Estate, Tangible and Auto Taxes** - exceeded the budget by \$2,198,329 due to prior year taxes coming in higher than budgeted. Also, current year taxes came in higher than anticipated due to better collection rates. Real Estate tax was over budget by \$1,169,028 of the variance. Motor Vehicle tax was over budget by \$967,789. Tangible tax was over budget by \$61,512. In prior year comparison, we were over last year by \$1,951,738 due to an increase in values and collection rates.

**Current Other Revenues** - were over budget by \$3,835 and over last year by \$5,999 primarily due to the commercial commission coming in higher than previous year and also a higher payment in lieu of taxes from our housing authority.

**License and Permit Revenue** - was over budget by \$155,676 and over last year by \$119,267. The variance for this year is mainly the result of Building, Electrical and Inspection fees coming in higher than budgeted as well as an increase over last year due to more permits being issued this year.

**Intergovernmental Revenue** – was under budget by \$724,993 and was over last year by \$127,345. The variance for this year was mainly due to a decrease in distressed communities aid and FIP Incentive Aid. We budgeted off of the governor's budget and the legislature decreased those two lines dramatically for the final passage. The variance for last year is due to the legislature giving us more money for Public Service Corporation Tax and PILOT money than the previous year.

**Charges for Services** - were over budget by \$450,258 and over last year by \$377,855. This year's variance was a combination of an increase in one time sales of vehicles and property that the city cleaned up and also higher rescue fees collected due to a third rescue put into place this fiscal year. The variance for last year is due mainly because of the sale of vehicles as we have previously indicated and zoning department liens coming in higher than the previous year.

**Fines and Forfeitures** - were over budget by \$20,274 and under last year by \$31,857. The variance for this year was mainly due to lower zoning court costs, but higher ticket revenue due to more snow storms and street sweeping than budgeted. The variance for last year was mainly due to less snow storm fines that were collected this year than what we collected in the previous year.

**Interest Revenue** – exceeded the budget by \$420,726 and over last year by \$293,699. We saw an increase in interest charged for late payment of taxes, as well as an increase in our interest rates due to having more money to invest yielding more interest income.

**Other Financing Sources** – exceeded the budget by \$164,531 and under last year by \$1,324,317. The variance for both years is mainly due to a transfer from our medical fund.

**Total Revenue** – exceeded the budget by \$2,688,636 mainly due to the increase in collections of our property taxes and various other reasons as explained above. We are over last year \$1,519,729 due to the increase in collections of our property taxes as well.

# **EXPENDITURES**:

Legislative – The Legislative Department was under budget by \$66,409 and over last year \$22,834.

**Board of Canvassers Division** – was under budget by \$7,690 and under last year by \$79,457. The variances are mostly due to an election being held during last fiscal year and none this fiscal year.

**Library Division** – was under budget by \$48,816 and over last year \$64,275. The variances are mostly due to a lag in hiring and also an increase in the heating line this fiscal year.

There were no significant variances in the City Council, City Clerk's, and Probate Court Divisions.

Executive – The Executive Department was over budget by \$2,547 and under last year \$59,523.

**Mayor's Office** – was over budget by \$73,049 and over last year \$79,400. This was mainly due to the addition of a new position.

**Law Department** – was under budget by \$70,590 and under last year \$46,819. The variances are mostly due to a lag in hiring and a drop in legal fees this fiscal year.

There were no material variances in the Municipal Court Division.

Finance - The Finance Department was under budget by \$162,253 and over last year \$83,387.

**Finance Director Division** – was over budget by \$6,902 and under last year by \$33,544. The variance is mostly due to the hiring of a consultant in the previous fiscal year.

**Tax Assessors Division** - was under budget by \$71,169 and over last year \$838. The variance this year is mostly due to a revaluation expense that is budgeted but not spent in the current fiscal year.

**Tax Collections Division** – was over budget by \$9,982 and over last year \$102,130. The variance from last year is due to a lag in hiring and also consultant fees being higher than last fiscal year.

**Information Technology Division** – was under budget \$27,205 and over last year by \$11,709. This was due to a combination a lag in hiring, hiring of consultants, and also a savings in some of our contracts on our hardware and software in the current year.

**Personnel Division** – was under budget \$91,034 and under last year by \$10,304. This was mainly due to a lag in hiring.

There were no other material variances in the Accounting, Purchasing or Payroll Divisions.

Planning - The Planning Department was under budget by \$8,336 and over last year \$66,851.

**Planning Division** – was under budget by \$18,893 and was under last year by \$56,024. This variance is mainly due to lag in hiring.

# **EXPENDITURES (CONTINUED):**

**Zoning & Code Enforcement Division** – was over budget by \$10,607 and over last year by \$35,837. The variance was mostly due to hiring of new employees and an increase in the Demo/Clearing line item.

There were no significant variances in the **Development Division**.

**Public Safety** – The Public Safety Department consists of the Police Department, Fire Department, and the Civil Defense Department.

Police – The Police Department was under budget by \$893,553 and over last year by \$1,184,184.

**Uniform Police Division** - was under budget by \$831,700 and over last year \$1,085,008. This year uniform salaries were under budget \$258,150 mainly due to lag time in replacement of retirees and terminations. We did not receive a credit from grants for payments to our pension plan this year compared to last year's credit of \$141,802. Restoration was also under budget \$151,235 due to DOT and other vendor payments to use police officer vehicles during road construction. In current year the medical costs for our injured on duty police officers was under budget by \$43,778. The main difference between this year and last year is due to an increased contribution of \$497,617 to the pension plan which brings us to our annual required contribution. Also our Medical costs increased this year by \$118,381 over last year.

**Civilian Police Division** - was under budget by \$40,844 and over last year \$71,713. The variances were mostly due to an increase in recruits in the academy this year over last year.

Animal Control Division – was under budget by \$21,009 and over last year \$27,463. This was mostly due to an increase in heating due to our radiant heating system and a colder, snowier winter.

Fire –The Fire Department was under budget by \$743,293 and under last year \$1,675,099.

**Uniform Fire Division** – was under budget by \$571,083 and under last year \$1,870,819. Uniform salaries were under last year \$207,372 mainly due to a drop in personnel. The difference between last year and this year is due to an increased contribution of \$497,618 to the pension plan which brings us to our annual required contribution. Also our overtime was over \$216,721 this year and under \$1,296,637 from last year due to the hiring of 21 new firefighters under a SAFER grant. Also, last year, we had to pay an arbitration that the City lost for its Holiday Pay which caused us to be under budget last year \$270,684. We also received a credit from the SAFER grant for pension costs of \$575,079 which we had previously not received nor budgeted.

**Civilian Fire Division** – was under budget by \$199,851 and over last year \$65,366. This was mostly due to budgeting 16 part time positions for dispatchers which did not come to fruition this year. We also increased a part time position in the budget for the current year which we did not have in the previous year.

**Fire Prevention Division** – was over budget by \$27,641 and over last year \$130,354. The variance was mainly due to having to increase one position due to arbitration in the current year.

# **EXPENDITURES (CONTINUED):**

There were no material differences in the Crossing Guard or Civil Defense Divisions.

**Public Works** – The Public Works Department was over budget by \$84,143 and over last year \$1,189,407.

**Public Works Director Division** – was over budget by \$5,806 and over last year \$333,737. The variance is mainly due to a reorganization of personnel within the entire Public Works Department in the current year.

**Engineering Division** – was over budget by \$8,620 and over last year \$100,487. The variance is mainly due to a reorganization of personnel within the entire Public Works Department in the current year.

**Equipment Maintenance Division** – was under budget by \$71,382 and under last year \$3,613. The variance is mainly due to a lag in hiring due to retirements and also a reduction in overtime.

**City Hall Maintenance Division** – was over budget by \$112,609 and over last year \$116,365. The variance is mainly due to an increase in the heating bill in the current year and the use of temporary services.

**Sewer Maintenance Division** – was under budget by \$56,307 and under last year \$63,334. The variance is mainly due to a lag in hiring due to retirements and also a reduction in temporary services and outside vendors needed.

**Beautification Division** – exceeded the budget by \$70,631 and over last year \$870,295. The largest variance was due to the change to privatization in the current year which caused a variance of \$1,958,886 and a savings in salary lines totaling \$662,658 over the prior year.

**Transfer Station Division** – was under budget by \$69,756 and under last year \$89,776. Since we leased out our Transfer Station starting in May of FY2012, we have seen a drop in our tipping fee line each year. Privatization has also helped to reduce trash and increase recycling.

**Recycling** – was under last year by \$318,124. This is due to no longer having this department due to privatization this year which resulted in the savings.

**Streets and Bridges Division** – was over budget by \$28,196 and under last year \$58,417. The variance is mainly due to a reorganization of personnel within the entire Public Works Department.

**Street Cleaning and Snow Removal Division** – was over budget by \$67,319 and over last year \$149,830. The variances contributing to being over budget this year were the sand/salt supply line and the snow storm salaries which were higher than the average budgeted. The largest contributing expenses over last year were the salary line which was due to a reorganization of personnel. Another major factor was we had to restore a vehicle which was \$34,942 over last year.

**Parks Division** – was over budget by \$18,420 and over last year \$204,470. The variance is mainly due to a reorganization of personnel within the entire Public Works Department.

# **EXPENDITURES (CONTINUED):**

**Recreation Division** – was under budget by \$7,004 and under last year \$94,602. The variance is mainly due to a reorganization of personnel within the entire Public Works Department.

There were no other material variances in the Public Building Main, Traffic, and Daggett Farm Divisions.

**Fixed Charges (Non-Departmental Costs)** – The Fixed Charges Section were under budget by \$441,124 and over last year by \$922,840.

**Debt Service** – was over budget by \$49,053 and over last year \$782,509. The main reason for the difference from last year to this year is a new equipment lease causing an increase in lease principal and interest of \$670,874. We also had an increase in BANS interest due to extending our bond until the next fiscal year.

**Operating Insurance** – was under budget by \$170,415 and under last year \$180,816. Both variances are mainly due not fully expending our claims and judgments line in the current year.

**Interdepartmental Contributions** – were over budget by \$886 and under last year \$1,107. The main reason for the variance from last year is due to a decrease in our maintenance of effort.

**Other Employee Benefits** – was under budget by \$144,853 and over last year \$505,428. The major variance for this year was the savings in unemployment insurance as we had less claims due to limits being reached on employees who had been laid off previously. We also increased our budget for our retiree health care in FY14 by \$612,398, which is the major factor in the overage of last year.

**Fixed Charges** – was under budget by \$135,795 and under last year \$183,130. Accrued hours payoff was under budget \$278,610 and under last year \$216,663 due to less retirements in the current year. The variance this year is mainly due to the Provision for Reserves expense in the amount of \$399,019 being budgeted but not actually spent.

**Total Expenditures** – were under budget by \$2,202,335 and over last year \$1,892,318. This year's variance is due to some retirements, a lag in hiring, and some reorganizations as explained above.

### **Capital Assets**

The City's investment in capital assets for its governmental and business-type activities amounts to \$297,139,800, net of accumulated depreciation, at June 30, 2014.

Additional information on the City's capital assets is located in Note 4 to the financial statements, which can be found on pages 45-46.

	Capital Assets (Net of Accumulated Depreciation)							
		2014		2013

City of Pawtucket Capital Assets (Net of Accumulated Depreciation)

Construction in progress for governmental activities relates to the City's festival pier restoration project. This project will be funded from grant proceeds awarded in fiscal years 2014 and 2015. Construction in progress for business-type activities relates to PWSB annual water main replacement contracts to complete the restoration of the water transmission and distribution system. These and other projects will be funded from bond proceeds available from bonds issued in fiscal years 2013 and 2012, and rate revenue restricted for infrastructure improvements. The water transmission and distribution system capital improvements, which will benefit the ratepayers for many years, are paid from debt financing on an as needed basis.

The City has the following commitments related to construction project contracts at June 30, 2014:

City:

Pawtucket Festival Pier		\$ 1,126,514
PWSB:		
Main Replacement Contract MR-8 Main Replacement Contract MR-9 T&D Operations Center Architect Services	\$ 926,800 2,525,953 17,544	 3,470,297
		\$ 4,596,811

### **Debt administration**

At the end of the current fiscal year, the City's governmental activities had total bonded debt of \$31,512,110, backed by the full faith and credit of the City.

The following is a summary of the City's debt:

City of Pawtucket General Obligation Bonds and Notes Payable									
		2014		2013					
	Governmental activities	Business-type activities	Total	Governmental activities	Business-type activities (restated)	Total (restated)			
General obligation bonds Bond premiums and capital	\$ 31,512,110		\$ 31,512,110	\$ 34,932,585		\$ 34,932,585			
leases Water and clean water	6,334,430	\$ 304,021	6,638,451	4,419,535	\$ 317,814	4,737,376			
bonds		97,500,787	97,500,787		97,661,225	97,661,225			
Notes and loans payable	12,670,000	844,149	13,514,149	8,610,000	875,414	9,485,414			
	\$ 50,516,540	\$ 98,689,215	\$ 149,205,755	\$ 47,962,120	\$ 98,854,480	\$ 146,816,573			

Additional information on the City's long-term debt can be found in Note 7 to the financial statements on pages 50 through 55.

The City maintains a "Baa2" rating from Moody's for general obligation debt. The State of Rhode Island imposes a limit of 3% of net assessed value of all taxable City property on the general obligation debt that a municipality can issue. The City's limit is \$107,267,483 at year-end. The City's outstanding indebtedness subject to the limitation is \$7,200,523 at year-end, which is \$100,066,960 below the State-imposed limitation.

# **Contingencies**

# Litigation:

During the ordinary course of its operations, the City is a party to various claims, legal actions and complaints; it adequately accrues liabilities for losses when they are both probable and can be reasonably estimated.

The City is involved in the early stages of litigation with several plaintiffs relating to tax assessment appeals, personal injuries and contract disputes. The outcomes of the cases are not known at this time. Management is rigorously defending the cases and has calculated the range of potential liability, after applying the City's insurance deductible, if the City should not prevail to be between \$-0- and \$1,476,000. As it is not probable that a liability has been incurred, no liability has been recorded in the accompanying financial statements.

# **Contingencies (continued)**

### Property and liability insurance:

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors or omissions; and natural disasters. As a result, the City participates in a non-profit, public entity risk pool (Rhode Island Interlocal Risk Management Trust, Inc.) (the Trust) which provides coverage for property and liability claims. Upon joining the Trust, the City signed a participation agreement which outlines the rights and responsibilities of both the Trust and the City. The agreement states that for premiums paid by the City, the Trust will assume financial responsibility for the City's losses up to the maximum amount of insurance purchased, minus the City's deductible amounts. The Trust provides this insurance coverage through a pooled, self-insurance mechanism which includes reinsurance purchased by the Trust to protect against large, catastrophic claims above the losses the Trust retains internally for payment from the pooled contributions of its members. Under the participation agreement, the City is insured for a maximum of \$4,000,000 per occurrence. Settled claims resulting from these risks have not exceeded the Trust coverage in any of the past three fiscal years. There were no significant reductions in insurance coverage during the year ended June 30, 2014. At June 30, 2014, the Trust's estimated reserves on open claims not subject to coverage amounted to approximately \$1,244,000, which the City could be liable for.

### **Economic factors and next year's budgets and rates**

The City's total general fund budget, including the school, for fiscal year 2015 amounts to \$219,244,445, which reflects an increase of \$5,675,142, or 2.66%, more than the fiscal 2014 budget of \$213,569,303. Of the City's 2015 budget, \$106,913,545, or 48.8%, is budgeted for educational purposes and \$112,330,900, or 51.2%, is budgeted for other purposes.

The City's tax rate for fiscal year 2015 is \$30.88 per thousand for commercial real property, \$23.06 per thousand for residential real property, \$53.30 per thousand for motor vehicles and \$52.09 per thousand for tangible personal property. These rates remained unchanged from FY14 as there was no tax increase. Taxes for retail/wholesale inventory have been completely phased out.

### Requests for Information

This financial report is designed to provide our citizens, taxpayers and creditors with a general overview of the City's finances and to show the City's accountability for the tax dollars received. Questions concerning this report, or requests for additional information, should be directed to Ms. Joanna L'Heureux, Finance Director, Pawtucket City Hall, 137 Roosevelt Avenue, Pawtucket, RI 02860, Telephone (401)728-0500.

### RECONCILIATION OF GOVERNMENTAL FUNDS STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES TO STATEMENT OF ACTIVITIES

### YEAR ENDED JUNE 30, 2014

Net change in fund balances for governmental funds			\$ 2,634,660
Governmental funds report capital outlays as expenditures; however, in the statement of activities these costs are allocated over the life of the related asset and reported as depreciation expense. Capital outlays, including amounts charged to current expenditures	\$	6,871,399	
Depreciation expense	-	(5,312,157)	1,559,242
Revenues in the statement of activities that do not provide current financial resources and therefore are not reported as revenues in the governmental funds.			(2,034,893)
Change in net OPEB obligation is recorded in the statement of activities, but not in the governmental funds			(4,887,075)
Change in net pension obligation is recorded in the statement of activities, but not in the governmental funds			(2,031,433)
The issuance of long-term debt (including premiums or discounts) provides current resources to governmental funds, but issuing debt increases long-term liabilities in the statement of net position. Repayment and refunding of bonds and notes use current financial resources, but decrease long-term liabilities in the statement of net position. Bond premiums, discounts and refunding charges are deferred and amortized as part of future interest expense.			
Principal repayment on general obligation bonds, notes payable and capital leases		4,764,028	
Amortization of premiums, discounts and deferred charges on refunding Capital lease proceeds		52,719 (68,667)	
Refundings of bonds and notes		(85,007)	
Retirement of undrawn capital lease proceeds		(3,117,500)	1,545,580
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds:			
Accrued compensated absences		(557,033)	
Accrued interest		(36,295)	 (593,328)
Change in net position of governmental activities			\$ (3,807,247)

### NOTES TO BASIC FINANCIAL STATEMENTS

### YEAR ENDED JUNE 30, 2014

### 1. Summary of significant accounting policies:

The basic financial statements of the City of Pawtucket, Rhode Island (the City), have been prepared in conformity with accounting principles generally accepted in the United States of America applicable to governmental entities (U.S. GAAP). In certain instances, summaries of the City's significant accounting policies have been presented throughout the notes to the basic financial statements in conjunction with other disclosures to which they relate.

Financial reporting entity:

- The City is a municipal corporation governed by a Council/Mayor form of government with a ninemember City Council headed by a Council President. In some matters, including the issuance of short and long-term debt, the general laws of the State of Rhode Island govern the City. The City provides the following services: Public Safety (police, fire, traffic safety, inspections, zoning and building), Public Works (sanitation, highways and streets, engineering and building maintenance), Water Supply, Parks and Recreation, Education, Social Services, and General Administrative Services.
- In evaluating the inclusion of other separate and distinct legal entities as component units within its financial reporting structure, the City applied the criteria prescribed by Governmental Accounting Standards Board (GASB) Statement No. 14, as amended by GASB Statement Nos. 39 and 61. A component unit is a legally separate organization for which the elected officials of the primary government are financially accountable or for which the nature and significance of its relationship with the primary government is such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete. Through the application of GASB criteria, the Pawtucket Business Development Corporation has been presented as a component unit of the City in the accompanying government-wide financial statements.
- The Pawtucket Business Development Corporation is a nonprofit corporation whose purpose is to promote the growth of business and industry in Pawtucket through loans to local businesses. It is governed by a volunteer board of directors appointed by the Mayor of the City and is managed by the employees of the City's Planning Department. Complete financial statements for the Pawtucket Business Development Corporation may be obtained at its administrative office at 175 Main Street, Pawtucket, RI 02860.

Basis of presentation:

Government-wide financial statements:

The statement of net position and statement of activities display information about the City as a whole. They include all funds of the reporting entity except for fiduciary funds and distinguish between governmental and business-type activities. Governmental activities generally are financed through taxes, intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

### NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

### YEAR ENDED JUNE 30, 2014

1. Summary of significant accounting policies (continued):

Basis of presentation (continued):

Government-wide financial statements (continued):

The statement of activities presents a comparison between expenses and program revenue for each function of the City's governmental activities. Program revenues include a) fees, fines and charges paid by the recipients of goods or services offered by the programs and b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund financial statements:

- Fund financial statements of the City are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts which constitute its assets, liabilities, fund equity, revenues, and expenditures. Funds are organized into three major categories: governmental, proprietary, and fiduciary. An emphasis is placed on major funds, each displayed in a separate column. A fund is considered major if it is the primary operating fund of the City or meets the following criteria:
  - a) Total assets plus deferred outflows of resources, liabilities plus deferred inflows of resources, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type, and
  - b) Total assets plus deferred outflows of resources, liabilities plus deferred inflows of resources, revenues, or expenditures/expenses of that individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.
- In addition to funds that meet the major fund criteria, any other governmental or enterprise fund that the government's officials believe is particularly important to financial statement users (for example, because of public interest or inconsistency) may be reported as a major fund.

Fund types used by the City and a description of the funds comprising each are as follows:

### Governmental funds:

Governmental funds are used to account for operations that supply basic government services. The City uses the following governmental funds:

### NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

### YEAR ENDED JUNE 30, 2014

### 1. Summary of significant accounting policies (continued):

Basis of presentation (continued):

Fund financial statements (continued):

Governmental funds (continued):

General fund:

The General Fund is the primary operating fund of the City and is always classified as a major fund. It is used to account for and report all activities except those legally or administratively required to be accounted for in other funds.

### Special revenue funds:

Special revenue funds are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specific purposes other than capital projects. The City's major special revenue fund is the school unrestricted fund. Funds from the United States Department of Housing and Urban Development (HUD) restricted for the acquisition of or assistance with urban development projects are accounted for and reported in special revenue funds (HUD funds).

### Capital projects funds:

Capital projects funds are used to account for and report financial resources restricted, committed or assigned for the acquisition or construction of specific capital projects or items.

### Permanent funds:

Permanent funds account for and report assets held by the City pursuant to trust agreements. The principal portion of this fund type must remain intact, but the earnings may be used to achieve the objectives of the fund.

### Proprietary funds:

Proprietary funds are used to account for business-like activities provided to the general public (enterprise funds) or within the government (internal service funds). These activities are financed primarily by user charges and the measurement of financial activity focuses on net income measurement similar to the private sector.

### NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

### YEAR ENDED JUNE 30, 2014

1. Summary of significant accounting policies (continued):

Basis of presentation (continued):

Fund financial statements (continued):

Governmental funds (continued):

Fiduciary funds:

Fiduciary funds are used to report assets held by the City in a trustee or agency capacity and, therefore, cannot be used to support the City's own programs. The following fiduciary funds are used by the City:

### Agency funds:

Agency funds account for assets held by the City in a purely custodial capacity. The City has five agency funds. Since agency funds are custodial in nature (i.e. assets equal liabilities), they do not involve the measurement of results of operations. The agency funds for the City are those funds relating to the Student Activity Funds.

### Pension trust fund:

The pension trust fund is used to account for contributions made by the City and its participating employees to provide retirement benefits to participating employees.

### Major funds:

The City's major funds are as follows:

Fund	Brief Description
Governmental:	The primary operating fund of the City used to account for and report all
General Fund	activities except those legally or administratively required to be accounted for in other funds.
School Unrestricted Fund	This fund is used to report all financial transactions of the Pawtucket School Department, except those legally or administratively required to be accounted for in other funds.
Proprietary:	
School Lunch Fund	This fund accounts for lunch operations at all the schools.
Water Supply Board	This fund accounts for the City's water system.
175 Main Street	This fund accounts for the renting of an office building. 34

### NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

### YEAR ENDED JUNE 30, 2014

### 1. Summary of significant accounting policies (continued):

Basis of presentation (continued):

Measurement focus and basis of accounting:

- The government-wide financial statements are reported using the economic resources measurement focus and accrual basis of accounting, as are the proprietary funds and fiduciary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability if incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenue in the year for which they are levied. Grants and similar items are recognized as soon as all eligible requirements imposed by the provider have been met.
- Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are susceptible to accrual. Susceptibility occurs when revenues are both measurable and available for liquidating liabilities of the current period. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period (typically sixty days). Revenues not considered to be available are recorded as deferred inflows. Expenditures, including capital outlays, are recognized when a liability has been incurred, except for those involving debt service and other long-term obligations that are recognized when paid.
- Those revenues susceptible to accrual are property taxes, special assessments, federal impact aid, state aid, meals and hotel taxes collected by the State of Rhode Island (the State) on behalf of the City, interest and charges for services. Fines, licenses and permit revenues are not susceptible to accrual because generally they are not measurable until received in cash; therefore, they are recognized when received.
- Recognition of grant revenues is based on the susceptibility of accrual as determined by the legal and contractual requirements established by each grantor. For grants not restrictive as to specific purposes and revocable only for failure to comply with general prescribed requirements, revenues are recognized when actually received. Where expenditure is the prime factor in determining eligibility, grant revenue is recognized as allowable expenditures are made provided there is a valid claim. Prior to expenditure, proceeds are recorded as unearned revenue.
- Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. Internally dedicated resources are reported as general revenues rather than program revenues. Likewise, general revenues include all taxes.

### NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

### YEAR ENDED JUNE 30, 2014

### 1. Summary of significant accounting policies (continued):

Basis of presentation (continued):

### Measurement focus and basis of accounting (continued):

- Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of proprietary funds are charges to customers for sales and services. Operating expenses for the proprietary funds include the cost of sales and services, administrative expenses and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.
- When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, and then unrestricted resources as they are needed.

### Property taxes:

- Property taxes are recognized as revenue in the year they are levied and become available. The City's fiscal year 2014 property taxes were levied in July 2013 on assessed valuation as of December 31, 2012. Upon levy, taxes are billed quarterly and are due on July 15, October 15, January 15, and April 15. Failure to mail payments by due dates will result in a lien on the taxpayer's property. Assessed values are established by the Tax Assessor's Office and are currently calculated at 100% of assessed value for real estate and 100% of market value for motor vehicles. The most recent assessment of all real estate was completed as of December 31, 2012.
- Rhode Island general laws restrict the City's ability to increase its total tax levy by more than 4.00% over that of the preceding fiscal year.

### Intergovernmental revenues:

State aid is recognized as revenue in the year in which funds are appropriated by the Rhode Island General Assembly, provided they are collected during the fiscal year.

### Deferred inflows and outflows of resources:

Deferred outflows of resources represent the consumption of net assets that is applicable to a future reporting period. Deferred inflows of resources represent the acquisition of net assets that is applicable to a future reporting period.

### NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

### YEAR ENDED JUNE 30, 2014

### 1. Summary of significant accounting policies (continued):

### Deferred inflows and outflows of resources (continued):

At June 30, 2014, the City has deferred inflows of resources, as shown on the Balance Sheet – Governmental Funds, in the amount of \$9,621,110 related to property taxes receivable for payments not received within 60 days after year-end. At June 30, 2014, the City has deferred outflows of resources, as shown on the Statement of Net Position – Proprietary Funds, attributable to the Water Supply Board in the amount of \$160,740 related to deferred losses on refunding bonds, determined as the difference between the reacquisition price and net carrying amount of the refunded debt. The deferred loss is amortized over the remaining life of the old debt, prior to refunding, or the life of the new debt, whichever is shorter, using the effective interest method.

### Use of estimates:

The preparation of basic financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the basic financial statements. Estimates also affect the reported amounts of revenues, expenditures and expenses during the reporting period. The significant estimates included in the financial statements relate to the allowance for uncollectible taxes receivable, incurred but not reported claims expenses, and the assumptions used in the actuarial valuations to determine the required contribution to fund the police and firefighters pension plan and other postemployment benefits, and the related pension and other postemployment benefits, could differ from those estimates.

### Recent accounting pronouncements:

Effective for the fiscal year ended June 30, 2014, the City adopted the provisions of Statement No. 65 of the GASB, *Items Previously Reported as Assets and Liabilities* (GASB 65). GASB 65 requires that certain items no longer be reported in statements of net position since they do not meet the definition of either assets, liabilities, deferred outflows of resources or deferred inflows of resources. In addition, GASB 65 requires that certain items previously reported as assets and liabilities be reported as deferred inflows or outflows of resources. As required by GASB 65, effective July 1, 2013, financing costs are expensed as incurred. Previously, financing costs were deferred and amortized using the straight-line method over the life of the related debt. Due to the adoption of GASB 65, the City restated its 2013 financial statements, resulting in a decrease in net position of \$322,809 for governmental activities and \$2,204,115 for business-type activities as of July 1, 2013. For 2014, the adoption of GASB 65 resulted in an increase in net position of \$154,877. In addition, deferred loss on advance refundings of debt are now presented as a deferred outflow of resources instead of as an offset to bonds payable.

### NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

### YEAR ENDED JUNE 30, 2014

### 1. Summary of significant accounting policies (continued):

### Recent accounting pronouncements (continued):

- Effective for the fiscal year ended June 30, 2014, the City also adopted Statement No. 67 of the GASB, *Financial Reporting for Pension Plans* (GASB 67). This Statement replaces the requirements of Statement Nos. 25 and 50, as they relate to pension plans administered through trusts or equivalent arrangements. The City has included enhanced note disclosures and schedules of required supplementary information, including information on changes in net pension liabilities from year to year, in accordance with GASB 67.
- Effective for the fiscal year ending June 30, 2015, the City will adopt the provisions of Statement No. 68 of the GASB, *Accounting and Financial Reporting for Pensions* (GASB 68) which establishes standards for governmental employer recognition, measurement, and presentation of information about pension plans administered through trusts or equivalent arrangements. The City is currently evaluating the effects of GASB 68 on its financial statements.

### *Cash and equivalents:*

Cash and cash equivalents consist of cash on hand, time and demand deposits and short-term investments maturing within three months from the date of acquisition.

### Investments:

Investments are reported at fair value, based on quotations from applicable national securities exchanges. Unrealized gains and losses from changes in fair value are recognized as investment income. The State does not have pertinent laws regarding investments that apply to cities and towns.

### Interfund transactions:

Transactions between funds have been eliminated in the government-wide financial statements but fully presented within the governmental fund financial statements with no elimination made between or within funds. Reimbursements are accounted for as expenditures in the reimbursing fund and reductions to expenditures in the reimbursed fund. All other interfund transactions in the governmental fund financial statements are operating transfers on the operating statements of the funds involved.

### NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

### YEAR ENDED JUNE 30, 2014

### 1. Summary of significant accounting policies (continued):

### Interfund transactions (continued):

Activity between funds that is representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as either "due from/to other funds" (current portion) or "advances from/to other funds" (noncurrent portion). All other outstanding balances between funds are reported as "due from/to other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

### Capital assets:

- The accounting treatment for capital assets depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.
- In the government-wide financial statements, fixed assets are accounted for as capital assets. All capital assets are valued at historical cost or estimated historical cost if actual is unavailable, except for donated capital assets, which are recorded at their estimated fair value at the date of donation.
- The City defines capital assets as assets with an individual cost of more than \$10,000 and an estimated useful life in excess of five years. Such assets are recorded at historical cost or estimated historical cost (for certain assets acquired prior to 1960). Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities is included as part of the capitalized value of the assets constructed. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.
- The assets of the Water Supply Board, an enterprise fund, are used as collateral for water improvement revenue bonds.
- Depreciation of all exhaustible capital assets is recorded as an allocated expense in the statement of activities, with accumulated depreciation reflected in the statement of net position. Depreciation is provided over the assets' estimated useful lives using the straight-line method.

### NOTES TO FINANCIAL STATEMENTS (CONTINUED)

### YEAR ENDED JUNE 30, 2014

### 1. Summary of significant accounting policies (continued):

### Capital assets (continued):

The range of estimated useful lives by type of asset is as follows:

Autos and information processing equipment	5
Trucks	8
Equipment, furniture and fixtures	10
Heavy equipment	25
Buildings, infrastructure, water lines and fire hydrants	39 1/2
Sewer mains and certain water assets	75-100

Capital assets acquired by governmental funds are accounted for as capital outlay expenditures.

### Encumbrances:

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of funds are recorded in order to reserve that portion of the applicable appropriation, is employed in governmental funds. Open encumbrances at year-end are closed out and reevaluated at the beginning of the following fiscal year.

### Compensated absences:

- Under the terms of various contracts and agreements, City employees are granted vacation and sick leave in varying amounts based on length of service. The liability for compensated absences reported in the government-wide financial statements consists of unpaid, accumulated annual and sick leave balances. The liability has been calculated using the vesting method, in which leave amounts for both employees who currently are eligible to receive termination payments and other employees who are expected to become eligible in the future to receive such payments upon termination are included.
- In the governmental fund financial statements, vested or accumulated vacation and sick leave that is expected to be liquidated with expendable available financial resources is reported as an expenditure and a fund liability of the governmental fund that will pay it.
- In past years and in future fiscal years, the general fund has been used to liquidate the liability for compensated absences in governmental funds other than proprietary funds.

### NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

### YEAR ENDED JUNE 30, 2014

### 1. Summary of significant accounting policies (continued):

### Long-term obligations:

- In the government-wide financial statements, long-term debt and other long-term obligations (including compensated absences) are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the term of the related debt using the effective interest method.
- In the governmental fund financial statements, long-term debt is recognized as a liability of a governmental fund when due. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund. Bond premiums are reported as other financing sources while discounts are reported as other financing uses.

### Judgments and claims:

Liabilities for legal cases and other claims against governmental funds are recorded when the ultimate liability can be estimated and such cases are expected to be liquidated with expendable available financial resources. Proprietary fund types record these liabilities using the accrual basis of accounting.

### Bond issuance costs:

As a result of adopting GASB 65, bond issuance costs are recognized as expenses/expenditures in the current period.

### Unearned revenue:

Unearned revenue represents funds received in advance of being earned or receivables which will be collected and included in revenues of future fiscal years. In the HUD Special Revenue Fund, unearned revenue relates to amounts expected to be received in future periods as part of a loan program.

### Self-insurance:

The City's self-insurance costs for health and dental liabilities are accounted for in the City's internal service fund. Claims incurred but not paid, including those which have not been reported, are accounted for as expenses and accrued claims in those funds when a liability has been incurred.

### NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

### YEAR ENDED JUNE 30, 2014

### 1. Summary of significant accounting policies (continued):

### *Net position:*

In the government-wide financial statements, the City's net position has been segregated into the following three components:

- Net investment in capital assets represents the net book value of all capital assets less the outstanding balances of bonds and other debt, and deferred inflows of resources, if any, used to acquire, construct or improve these assets, increased by deferred outflows of resources related to those assets, if any.
- Restricted assets that have been limited to uses specified either externally by creditors, contributors, laws, or regulations of other governments or internally by enabling legislation or law; reduced by liabilities and deferred inflows of resources related to the restricted assets.

Unrestricted – a residual category for the balance of net position

### Fund balance:

- In the governmental fund financial statements, fund equity is classified as fund balance and is further classified as nonspendable, restricted, committed, assigned or unassigned as described below:
  - Nonspendable the amounts that cannot be spent because they are either a) not in spendable form or b) legally or contractually required to remain intact.
  - Restricted amounts that have been restricted to specific purposes either by creditors, grantors, contributors, or laws or regulations of other governments; or imposed by law through constitutional provisions or enabling legislation.
  - Committed amounts constrained to specific purposes by the City, using its highest level of decision-making authority. These committed amounts cannot be used for any other purpose unless the City Council removes or changes the specific use through the same type of formal action taken to establish the commitment. This constraint must be imposed prior to the fiscal year-end, but the specific amount may be determined at a later date.

### NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

### YEAR ENDED JUNE 30, 2014

### 1. Summary of significant accounting policies (continued):

### Fund balance (continued):

Assigned – the amounts that are intended by the City to be used for specific purposes, but are neither restricted nor committed.

Unassigned – amounts available for any purpose. Unassigned fund balance is commonly used for emergency expenditures not previously considered. In addition, the resources classified as unassigned can be used to cover expenditures for revenues not yet received.

Expenditures may be incurred for purposes for which both restricted and unrestricted (committed, assigned, or unassigned) amounts are available. Composition of the ending fund balance will be determined by applying the following: In those instances where both restricted and unrestricted amounts are available, restricted amounts will be considered to have been spent first (as allowed and in compliance with stated and specified terms or requirements), followed by committed amounts, followed by assigned amounts, and then unassigned amounts.

2. Budgetary data and budgetary compliance:

Prior to the passage of the annual budget ordinance, the City Council adopts a capital program and capital budget. The capital budget ordinance shows in detail the capital expenditures intended to be made or incurred in the next fiscal year that are to be financed from bond proceeds. These funds are subject to control or appropriation by the Council and must be in full conformity with that part of the capital program applicable to the year which it covers. The Council may amend the capital budget ordinance, but no amendment is valid which does not conform to the capital program. At least 25 days prior to the end of the fiscal year, the budget is legally adopted.

Legal debt margin:

The City's legal debt margin as set forth by State Statute is limited to 3% of total net assessed property value, which totals \$3,575,582,764 based on the December 31, 2012 assessment. As of June 30, 2014, the City's debt subject to the Maximum Aggregate Indebtedness provision (3% Debt Limit) of the Rhode Island General Laws 45-12-2 totaled \$7,200,523. All other City debt is exempt as it has been incurred through special statutory authority which consists of approval by the legislature and voter referendum.

### NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

### YEAR ENDED JUNE 30, 2014

### 3. Stewardship, compliance, and accountability:

Donor-restricted endowments:

The City has received certain endowments for Library and Cemetery maintenance, which are reflected in net position restricted for trust agreements. Investment income is approved for expenditure by the various boards of the benefiting activities and is included in nonspendable fund balance.

### NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

Depreciation expense was charged to functions as follows:

Business-type activities:	
Water Supply Board	\$ 2,640,906
157 Main Street	 135,852
	\$ 2,776,758

Construction in progress relates to construction of a new transmission and distribution operations center and annual water main replacement contracts to complete the restoration of the water transmission and distribution system. These and other projects will be funded from bond proceeds available from bonds issued in prior years and rate revenue restricted for infrastructure improvements.

The PWSB has the following commitments related to construction project contracts at June 30, 2014:

Main Replacement Contract MR-8 Main Replacement Contract MR-9 T&D Operations Center Architect Services	\$ 926,800 2,525,953 17,544
	\$ 3,470,297

### NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

### YEAR ENDED JUNE 30, 2014

### 5. Deposits and investments:

Cash and cash equivalents:

At June 30, 2014, deposits are categorized as follows:

	 Insured	Collateralized		ized Uncategorized		 Total bank balance		Carrying amount
Demand deposits	\$ 2,525,690	\$	47,370,178	\$	3,727,731	\$ 53,623,599	\$	51,998,054

Restricted cash consists of funds deposited by PWSB into restricted debt service accounts to be used for future debt service payments, as required under loan agreements with the Rhode Island Clean Water Finance Agency.

### Investments:

Investments of all idle funds are made through national banks or trust companies, providing that the financial conditions and integrity of the institutions are verifiable and can be monitored. The investment of funds must be in direct obligations of the United States Government and "money market instruments" rated "A" or better. Investments in any one institution cannot exceed 5% of that institution's capital and surplus as set forth in the institution's most recent audited financial statements.

### Concentration of credit risk:

- Concentration of credit risk is the risk of loss attributed to the magnitude of the investment in a single issuer.
- The City's investment policy is to maintain a diversified portfolio to minimize the risk of loss resulting from over concentration of assets in a specific maturity.

The City's cash, cash equivalents and investments, including the Pension Trust Fund, are as follows:

Cash and cash equivalents: Deposits with financial institutions	\$ 51,998,054
Investments:	
U.S. Government and agency obligations	20,689,816
U.S. Treasuries	3,566,052
Corporate bonds	4,869,187
Mutual funds	702,249
Common stocks	69,521,856
Certificate of deposit	 107,986
Total investments	 99,457,146
Total cash and investments	\$ 151,455,200

### NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

### YEAR ENDED JUNE 30, 2014

### 5. Deposits and investments (continued):

### Interest rate risk:

- This is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates.
- The City limits its exposure to fair value losses arising from changes in interest rates by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operations. This policy prevents the need to sell securities on the open market prior to maturity. The City invests operating funds primarily in shorter-term securities, money market funds, or similar investment pools.

### Credit risk:

- Credit risk, which is the risk that an issuer of a debt-type investment will not fulfill its obligation to the holder of the investment, is measured by assignment of a rating by a nationally recognized rating organization. U.S. government securities or obligations explicitly guaranteed by the U.S. government are not considered to have credit risk exposure. The City has no investment policy that would limit its investment choices due to credit risk other than State statutes governing investments in obligations of any State or political subdivision or in obligations of the State of Rhode Island or political subdivision.
- Information about the exposure of the City's debt-type investments to interest rate and credit risk, using the segmented time distribution model, is as follows:

Type of investment	Moody's rating	Less that 1 year		1-10 Years	 Over 10 years
U.S. Government and Agency Obligations	Not available Aaa	\$ 3,853	\$ ,775	2,689,972 7,840,582	\$ 4,164,644 2,140,843
U.S. Treasuries	Aaa	3,566	,052		
Domestic corporate bonds	Not available Aaa Aa3 A1 A2 A3 Baa1 Baa2			246,038 858,559 892,346 244,440 651,389 511,045 250,996	373,706 395,496 169,571 275,601
		\$ 7,419	,827 \$	14,185,367	\$ 7,519,861

### NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

### YEAR ENDED JUNE 30, 2014

### 5. Deposits and investments (continued):

Custodial credit risk:

Custodial credit risk for deposits is the risk that, in the event of failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. Custodial credit risk for investments is the risk that, in the event of a failure of the counterparty, the City will not be able to recover the value of its investments or collateral securities that are in the possession of the outside party. The City does not believe that it has significant custodial credit risk with regard to its investments as substantially all investment securities are registered and held in the name of the City.

6. Property taxes:

The City is permitted by State law to levy property taxes. Current tax collections for the City were approximately 95% of the total December 31, 2012 levy.

For the year ended June 30, 2014, the City used a tax rate of \$30.88 per thousand for commercial real property, \$23.06 per thousand for residential real property, \$53.30 per thousand for motor vehicles, and \$52.09 per thousand for tangible personal property.

### NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

### YEAR ENDED JUNE 30, 2014

7. Long-term obligations and subsequent events (continued):

Payments on all long-term debt and other long-term liabilities that pertain to the City's governmental activities are made by the General Fund and School Unrestricted Fund.

- On June 23, 2011, the City Council approved an ordinance authorizing the City to use accumulated funds for the Pawtucket School Department deficit reduction plan in fiscal year 2011. This ordinance allowed the City to transfer accumulated fund balances in various funds to the City's General Fund. The Cemetery Perpetual Care permanent fund transferred \$500,000 to the General Fund, \$350,000 of which was deemed a loan that shall be repaid to the permanent fund in equal annual payments of \$40,000 for a period of ten years beginning in fiscal year 2013. This loan payable, in the amount of \$270,000, is included in the government-wide long-term obligations.
- Balances as of July 1, 2013 were restated principally to present long-term obligations of the business-type activities net of undrawn loan proceeds. Previously, such amounts were reported as intergovernmental receivable on the statements of net position.
- The City entered into an agreement with the Rhode Island Clean Water Finance Agency (RICWFA) in August 2014 for a road and bridge fund loan in the amount of \$3,500,000. Principal and interest payments commence on September 1, 2015 with a maturity date of September 1, 2034. Annual interest rates range between 0.64% and 2.97%.
- The City entered into an agreement with the Rhode Island Health and Educational Building Corporation (RIHEBC) in October 2014 for a series of revenue bonds in the amount of \$8,000,000. Principal and interest payments commence on May 15, 2015 with a maturity date of May 15, 2034. Annual interest rates range between 2.00% and 4.00%.
- The City entered into an agreement for a series of General Obligation Bonds totaling \$6,000,000 in November 2014. Principal and interest payments commence on November 1, 2015 with a maturity date of November 15, 2034. Annual interest rates range between 2.00% and 5.00%.
- The City entered into an agreement for a series of General Obligation Bonds totaling \$7,685,000 in November 2014. Principal and interest payments commence on July 1, 2015 with a maturity date of July 1, 2025. Annual interest rates range between 2.00% and 4.00%.

### NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

### YEAR ENDED JUNE 30, 2014

### 10. Fund equity (continued):

The City has a deficit reduction plan to address the School Unrestricted Fund deficit, which includes additional appropriations from the City's General Fund for a period of time. Deficits in the Capital Projects Funds will be funded through the issuance of general obligation bonds in fiscal year 2015. The deficits in the School Special Revenue Funds will be funded from the School Unrestricted Fund and grants received from the Rhode Island Department of Education.

### 11. Interfund transactions:

The principal purpose of interfund transfers is to provide a financing source to various funds that may not be sufficient to cover all costs with revenue generated by the fund.

Interfund receivables and payables at June 30, 2014 are as follows:

Receivable Fund	Payable Fund		Amount		
Governmental funds: General Fund	Nonmajor funds	\$	2,010,928		
Enterprise funds: General fund	Pawtucket Water Supply Board School lunch fund		2,746,581 160,029		
		\$	4,917,538		

The composition of interfund transfers for the year ended June 30, 2014 is as follows:

Fund/Department	Transfers to other funds		Transfers from other funds	
General fund Internal service fund	\$	30,898,197 134,152	\$	164,531

Permanent fund		19,189		60
	\$	31,914,599	\$	31,914,599

### NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

### YEAR ENDED JUNE 30, 2014

### 12. Bonds authorized but unissued:

Bonds authorized but unissued at June 30, 2014 were \$3,900,500, to be used for School Building Improvements, Public Buildings, Recreation, Sewer and Sanitation, Streets and Sidewalks, and Highway and Bridges.

### 13. Pension plans:

All eligible employees of the City are covered by one of three pension plans: the Municipal Employees' Retirement System of the State of Rhode Island, a hybrid plan with a defined contribution component for certain employees (Municipal Plan); the Employees' Retirement System of Rhode Island (Teachers' Plan); or the Police and Firefighters Pension Plan, a contributory defined benefit plan with two components: the Pre-Fiscal 1974 component (Old Plan) and the Post-Fiscal 1974 component (New Plan). The Municipal Plan covers all full-time City and non-certified School Department general employees not covered under the Police and Firefighters Pension Plan. The Teachers' Plan covers all School Department personnel certified by the Rhode Island Department of Education who are or have been engaged in teaching as a principal occupation. The Police and Firefighters Pension Plan is mandatory for employees of the City who are covered under a collective bargaining agreement between the City and the Pawtucket Fire Fighters Independent Union and the City and the Pawtucket Lodge No. 4, Fraternal Order of Police. Total covered payroll under all defined benefit plans during 2014 was \$91,645,628. Total City payroll was \$93,330,935 for the same period.

- In November 2011, the State enacted the Rhode Island Retirement Security Act of 2011 (RIRSA), which made broad changes to the Teachers' Plan and Municipal Plan effective July 1, 2012. The most significant changes include changing the structure of the retirement program from a traditional defined benefit plan to a hybrid plan designed with a smaller defined benefit plan and a supplemental defined contribution plan; changing the automatic cost of living adjustment (COLA) from a CPI-related formula to a formula contingent on the actual investment performance over time; suspension/reduction of the COLA during times when the funded ratio is lower than targeted 80% levels; and the re-amortization of the Unfunded Actuarial Accrued Liability (UAAL) to 25 years from the 19-year schedule as of June 30, 2010. For the Teachers' Plan, teachers not covered by Social Security will participate in additional defined contribution allocations equal to 2% member plus 2% employer. Included within these significant changes are certain rules for transitioning from the prior defined benefit structure to the smaller defined benefit plan going forward. The changes in the defined benefit plan instituted by RIRSA have been fully reflected in the actuarial valuation as of June 30, 2012.
- Legal challenges to legislatively enacted pension reforms are proceeding through the courts and as of the date of this report are in court-ordered mediation.

### NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

### YEAR ENDED JUNE 30, 2014

### 13. Pension plans (continued):

### Municipal Plan:

### Plan description:

The Municipal Plan is an agent multiple-employer public employee retirement system administered by the State. The Employees' Retirement System of Rhode Island (the System) issues an annual financial report that includes financial statements and required supplementary information for all of the plans it administers. The reports can be obtained at www.ersri.org or 50 Service Avenue, Warwick, RI 02886. The payroll for employees covered under the defined benefit portion of the Municipal Plan for the year ended June 30, 2014 was approximately \$18,961,000.

### *Eligibility and benefits:*

The following eligibility and benefit provisions are established by State Statute. The System generally provides retirement benefits equal to 1 percent (2 percent for each year of service prior to July 1, 2012) of final average salary per year of service with a maximum benefit of 75 percent of final average salary. Final average salary is the three highest consecutive years of earned salary exclusive of overtime, bonuses or severance pay. Such benefits are available to members at least age 58 with 10 years of service or after 30 years regardless of age. The plan also provides non-occupational disability benefits after five years of service, occupational disability benefits with no minimum service requirement, survivors' benefits, and certain lump sum death benefits. Employees are vested in their retirement benefits on completion of five years of service.

### Funding policy:

- The funding policy is outlined in Rhode Island General Laws (RIGL) sections 45-21-41, 45-21-42, and 45-21-52 (which can be amended by the Rhode Island General Assembly). Active members must contribute 2% of their compensation.
- The City is required to contribute at an actuarially determined rate expressed as a percentage of total compensation paid to the active membership. The rate for fiscal year 2014 was 14.67%. The City contributed \$2,778,221 during the year ended June 30, 2014, which was equal to its required contribution. General municipal employees were required to contribute \$379,231, which represents 2% of covered payroll.

### NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

### YEAR ENDED JUNE 30, 2014

### 13. Pension plans (continued):

### Municipal Plan (continued):

### Annual pension cost:

The following table summarizes employer annual pension costs and percent contributed for the defined benefit portion of the Municipal Plan for the past three years. There was no net pension obligation during the three-year period.

Fiscal year	nual pension ost (APC)	Percentage of APC contributed
2012	\$ 1,929,120	100%
2013	\$ 2,471,694	100%
2014	\$ 2,778,221	100%

Funded status and funding progress:

As of June 30, 2013, the date of the most recent actuarial valuation available, the funded status and funding progress were as follows:

Funded ratio	75.9%
Actuarial accrued liability for benefits	\$ 114,292,417
Actuarial value of assets	\$ 86,742,714
Unfunded actuarial accrued liability (UAAL)	\$ 27,549,703
Covered payroll	\$ 18,980,419
UAAL to covered payroll	145.1%

The schedule of funding progress, presented as required supplementary information (RSI) following the notes to the basic financial statements, presents multiyear trend information about whether the actuarial values of Municipal Plan assets are increasing or decreasing over time relative to accrued actuarial liabilities for benefits.

# NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

# YEAR ENDED JUNE 30, 2014

# 13. Pension plans (continued):

# Municipal Plan (continued):

#### *Defined contribution plan:*

- The municipal employees in the general unit participate in the defined contribution plan of the System as authorized by RIGL Chapter 36-10.3. The defined contribution plan is established under IRS section 401(a) and is administered by TIAA-CREF and the System. Employees may choose among various investment options available to plan participants. Employee contributions are immediately vested while employer contributions are vested after three years of contributory service. Contributions required under the plan by both the employee and the employer are established by RIGL, which are subject to amendment by the General Assembly. Amounts in the defined contribution plan are available to participants in accordance with Internal Revenue Service guidelines for such plans.
- The funding policy is outlined in RIGL Chapter 36-10.3 (which can be amended by the Rhode Island General Assembly). Active plan members must contribute 5% of their compensation and the City is required to contribute 1%. The State reimburses the City .40% of eligible certified teachers' compensation.
- The plan members and the City contributed \$2,590,673 and \$527,391, respectively, during the fiscal year ended June 30, 2014. For financial reporting purposes, the State's share of contributions, in the amount of \$190,959 for the year ended June 30, 2014, is reflected as a reduction of related expenditures in the accompanying financial statements.

# NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

# YEAR ENDED JUNE 30, 2014

#### 13. Pension plans (continued):

#### Teachers' Plan:

#### Plan description:

- The Teachers' Plan is a statutory, mandatory, statewide, cost-sharing multiple-employer public employee retirement system administered by the State. The System issues an annual financial report that includes financial statements and required supplementary information for all of the plans it administers. The reports can be obtained at www.ersri.org or 50 Service Avenue, Warwick, RI 02886.
- The plan provides retirement, death and disability benefits (as well as annual cost of living allowances if certain conditions have been met) as outlined in Chapters 36-10 and 16-16 of the RIGL. The benefits may be amended by the Rhode Island General Assembly. Legal challenges to legislatively enacted pension reforms are proceeding through the courts and, as of the date of this report, are in court-ordered mediation.
- Total covered payroll under the Teachers' Plan during 2014 was \$52,845,196, including \$5,080,753 of federally reimbursed payroll.

#### Funding policy:

- The funding policy is outlined in RIGL sections 16-16-22 and 36-10-2 (which can be amended by the Rhode Island General Assembly). Active plan members must contribute 3.75% of their compensation. The City and the State are collectively required to contribute at an actuarially determined rate expressed as a percentage of total compensation paid to the active membership. The employer contribution is split and paid 40% by the State and 60% by the City with the exception of teachers who work in federally funded programs where 100% is paid by the City and reimbursed by the federal government. For the year ended June 30, 2014, the total employer rate was 20.68% (8.42% State share and 12.26% local share).
- The City contributed \$6,905,831 during the year ended June 30, 2014, equal to 100% of the actuarially required contributions for that year. For financial reporting purposes, the State's share of contributions, in the amount of \$4,021,766 for the year ended June 30, 2014, is reflected as on behalf-payments and included as both revenue and expenditures in the accompanying financial statements.

# NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

# NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

# YEAR ENDED JUNE 30, 2014

# 13. Pension plans (continued):

# Teachers' Plan (continued):

#### Actuarial methods and significant assumptions (continued):

Cost of Living Adjustments are equal to the average five-year fund asset performance (percent) greater than 5.5% up to a maximum of 4%. A 2% COLA is assumed after July 1, 2013.

#### Police and Firefighters Pension Plan:

The City administers a pension plan for Police and Fire Employees. The plan has two components: the Pre-Fiscal 1974 component (Old Plan) and the Post-Fiscal 1974 component (New Plan). The Old Plan covers police officers who were hired prior to July 1, 1973 and firefighters who were hired prior to July 1, 1972. The New Plan covers all police officers and firefighters who are not covered under the Old Plan. The Old Plan is unfunded while the New Plan is prefunded. The Police and Firefighters Pension Plan does not issue stand-alone financial reports.

#### Summary of significant accounting policies:

#### Basis of accounting

The Police and Firefighters Pension Plan is administered by the City, and is accounted for on the accrual basis of accounting. Revenues (contributions and investment income) are recognized when they are earned and expenses (benefits, administration and refunds) are recognized when they are due and payable in accordance with the terms of the plan.

#### Method used to value investments

Investments are reported at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Investments that do not have an established market are reported at estimated fair value. There are no investments of 5% or greater in any one organization.

#### NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

#### YEAR ENDED JUNE 30, 2014

#### 13. Pension plans (continued):

#### Police and Firefighters Pension Plan (continued):

#### Plan Membership:

As of July 1, 2014, the date of the latest actuarial valuation, pension plan membership consisted of the following:

Membership Status	Count	
Inactive plan members or beneficiaries currently receiving benefits	344	
Inactive plan members entitled to but not yet receiving benefits Active plan members	39 285	
Total	668	

#### *Benefits provided:*

The Police (Police) and Firefighters (Firefighters) Pension Plan provides pension benefits, and death and disability benefits. Mandatory retirement age under the Plan is 65.

#### Police

Upon completion of 20 years of credited service, a member is entitled to retire with a benefit equal to 50% of the member's highest annual salary (Base). Members retiring after 20 years of credited service are entitled to an additional retirement benefit of 3% (2% for Old Plan members) of the member's Base for each year of service over 20 years, but not to exceed an additional 3 years and 4 months (5 years for Old Plan members), with a maximum retirement benefit of 60%.

#### Firefighters

Members are vested in their benefits after 10 years of service, accruing 2.5% for each year of service up to and including their 20th year, with a maximum benefit equal to 50% of the member's three highest annual salaries (Base). However, a member leaving City employment before serving 20 years will not be entitled to their benefit until their 20th year anniversary from their date of hire. Firefighter members hired before May 1, 2013 retiring after 20 years of credited service are also entitled to an additional retirement benefit of 3% of the member's Base for each year of service over 20 years, but not to exceed an additional 3 years and 4 months, and 2% for each year of service thereafter, with a maximum retirement benefit of 70%. Firefighter members hired after May 1, 2013 retiring after 20 years of credited service are entitled to an additional retirement benefit of 2% of the member's Base for each year of service thereafter, with a maximum retirement benefit of service are entitled to an additional retirement benefit of 2% of the member's Base for each years hired after May 1, 2013 retiring after 20 years of credited service are entitled to an additional retirement benefit of 2% of the member's Base for each year of service benefit of 2% of the member's Base for each year of service benefit of 2% of the member's Base for each year of service benefit of 2% of the member's Base for each year of service benefit of 2% of the member's Base for each year of service benefit of 2% of the member's Base for each year of service benefit of 70%.

# NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

#### YEAR ENDED JUNE 30, 2014

#### 13. Pension plans (continued):

#### Police and Firefighters Pension Plan (continued):

#### Benefits provided (continued):

- Any member that withdraws from service prior to retirement (10 years for Firefighters) is entitled to a refund in a single sum of the amount of contribution made to the plan with interest at 4%. The payment of a refund under the provisions automatically affects a waiver and forfeiture of all accrued rights and benefits on the part of the member.
- Employees that become totally and permanently disabled are eligible for a benefit equal to 66 <sup>2/3</sup>% of the employee's pay at the time the disability occurs, plus an additional 10% for each dependent child of the employee until the child reaches the age of 21, with a maximum total disability benefit not to exceed 80% of the employee's pay at the time of the occurrence of the disability. The disability benefit will continue until the employee reaches normal retirement, at which time the member will receive the normal retirement benefit.
- In the event that an employee dies prior to retirement and is survived by a spouse or children, the spouse is entitled to a pension benefit equal to 50% (30% for Old Plan members) of the employee's highest or final salary plus an additional 10% for each dependent child less than 21 years of age. The benefit cannot exceed a total of 70% (50% for Old Plan members) of the member's highest or final salary. The benefits will continue during the lifetime of the spouse or until he/she remarries.
- Cost of Living Adjustments are equal to 1% to 3% annually depending on the member's date of retirement and collective bargaining agreement the member is covered by.

#### Contributions:

- Employee and Employer contribution requirements are established and may be amended by City Council ordinance or union contract.
- Eligible police and fire department employees hired before May 1, 2013 are required to contribute 7.5% of their salary to the plan. Eligible fire department employees hired after May 1, 2013 are required to contribute 9% of their salary to the plan. Eligible fire department employees', hired before May 1, 2013, contributions will increase .5% each fiscal year commencing on July 1, 2014 with a maximum of 9% by July 1, 2016.
- The City establishes employer contributions based on an actuarially determined contribution recommended by an independent actuary. The actuarially determined contribution is the estimated amount necessary to finance the costs of benefits earned by plan members during the year, with an additional amount to finance any unfunded accrued liability. For the year ended June 30, 2014, the City contributed \$12,911,682 to the Plan.

# NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

Investment rate of return	7.50%, net of pension plan investment expenses

Census data was collected as of July 1, 2013. Liabilities measured as of the census date were projected to June 30, 2014 assuming no demographic gains or losses.

Mortality rates were based on the RP-2000 Combined Generational Mortality Table

The long-term expected rate of return on pension plan investments was determined using a building-block method on which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return and by adding expected inflation. Best estimates of rates of return for each major asset class included in the pension plan's target allocation as of June 30, 2014 are summarized in the following table (note that the rates shown below include the inflation component):

Asset Class	Long-Term Expected Rate of Return
Domestic Large Cap Core	6.50%
Domestic Small Cap	5.50%
International Large Cap Value	5.50%
International Equity Fixed Income	6.00% 6.00%
Domestic Fixed Income	1.50%
Cash	0.50%

#### Discount rate:

The discount rate used to measure the total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed the City contributions will continue to follow the current funding policy. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Had there been a point where assets were projected to be depleted, a municipal bond rate of 3.66% would have been used in the development of the blended GASB discount rate after that point. The 3.66% rate is based on the S&P Municipal Bond 20 Year High Grade Rate Index.

#### YEAR ENDED JUNE 30, 2014

#### 13. Pension plans (continued):

#### Police and Firefighters Pension Plan (continued):

Sensitivity of the net pension liability to changes in the discount rate:

The following presents the net pension liability, calculated using the discount rate of 7.50%, as well as what the City's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.50%) or 1 percentage point higher (8.50%) than the current rate:

	 1%CurrentDecreaseDiscount Rate(6.50%)(7.50%)		1% Increase (8.50%)		
<u>Old Plan</u> :					
Net Pension Liability	\$ 2,900,639	\$	2,769,443	\$	2,650,334
New Plan:					
Net Pension Liability	\$ 172,751,270	\$	141,504,390	\$	115,778,080
<u>Total</u> :					
Net Pension Liability	\$ 175,651,909	\$	144,273,833	\$	118,428,414

The Schedule of Changes in City's Net Pension Liability and Related Ratios, the Schedule of City Contributions, and the Schedule of Investment Returns are presented as RSI following the notes to the basic financial statements.

Actuarial Assumptions and Methods:

*Funding valuation interest rate* 7.50% per annum

#### Interest rate for accounting

7.50% per year, compounded annually. Projected benefit payments that are expected to be paid from available plan assets are discounted at the valuation interest rate of 7.50%. After the point where plan assets are not available to pay benefits, projected benefit payments are discounted at the municipal bond rate. The valuation rate for accounting purposes is the effective rate resulting from this process.

# NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

# YEAR ENDED JUNE 30, 2014

#### 13. Pension plans (continued):

Police and Firefighters Pension Plan (continued):

Actuarial Assumptions and Methods (continued):

*Municipal bond rate* 3.66%. This rate is based on the S&P Municipal Bond 20 Year High Grade Rate Index.

*Compensation increase rate* 2.00% - 11.00% per annum

*Retirement age* Police and Fire Department rates according to the following table:

Years of Service	Percent Retiring			
Less than 20	0%			
20	25%			
21-24	50%			
25 or more	100%			
100% upon the attainment of age 58 regardless of serv				

All Others - 100% at the age at which unreduced benefits are first available

*Mortality* RP-2000 Combined Generational Mortality Table

#### Marriage Assumption

90% of males, 75% of females are married, with males four years older than their female spouse

*Expenses* Prior year's expenses, rounded to the nearest thousand dollars

*Participant Data* Liabilities measured at the census date of July 1, 2014.

Funding Methods:

#### Actuarial cost method

Entry age normal; the actuarial present value of projected benefits of each individual is allocated on a level basis over the covered salary of the individual between date of hire and assumed date they cease active employment. The portion of this actuarial present value not provided for at the valuation date by the actuarial present value of future entry age normal cost is called the accrued liability.

#### NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

# 13. Pension plans (continued):

#### Police and Firefighters Pension Plan (continued):

Actuarial Assumptions and Methods (continued):

#### Assets

General Account assets are determined at book value. Separate Account assets are determined at market value. The Actuarial Value of assets is determined using a method that spreads over a period of five years the difference between the actual investment income and the expected income (based on the valuation interest rate applied to the prior year's market value of assets).

Accounting Market value of assets

*Changes Since the Prior Valuation* None

#### Annual pension cost and net pension asset

The City's pension cost and net pension obligation for the year ended June 30, 2014 were:

	Old Plan	New Plan	Total
Annual Required Contribution (ARC)	\$ 543,355	\$ 12,386,341	\$ 12,929,696
Interest on net pension obligation	67,725	6,690,578	6,758,304
Adjustment to ARC	(164,478)	(4,580,406)	(4,744,884)
Annual pension cost	446,602	14,496,513	14,943,115
Contributions made	(525,341)	(12,386,341)	(12,911,682)
Increase in net pension obligation	(78,739)	2,110,172	2,031,433
Net pension obligation July 1, 2013	860,008	84,959,714	85,819,722
Net pension obligation June 30, 2014	\$ 781,269	\$ 87,069,886	\$ 87,851,155

# NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

# YEAR ENDED JUNE 30, 2014

13. Pension plans (continued):

#### Police and Firefighters Pension Plan (continued):

Actuarial Assumptions and Methods (continued):

Funding policy:

Old Plan:

- All of the Old Plan participants are now retirees or beneficiaries. The City pays the benefits of the Old Plan on a pay-as-you go basis through an annual budgetary appropriation.
- Each fiscal year, the City pays into the pension plan a sum equal to the actual benefit payout of the retirement system for the year. As the Old Plan matures, the amounts payable each year, in general, will decrease until paid in full. The City at present is not intending to create a pool of assets to cover these projected costs but rather will allow this plan to run its course. Because there are no active employees in the Old Plan and because of the diminishing contributions and the funds for payment are built into the taxpayer's rate and budget, the plan will not add any additional burden to future taxpayers and, thus, will continue as is until completion.

Schedule of employer contributions:

Annual Year Ended Required June 30 Contributions		Co	Actual ntributions	Percentage Contributed	Net Pension Obligation		
2012	\$	654,915	\$	578,452	86%	\$	821,456
2013	\$	654,915	\$	523,948	80%	\$	860,008
2014	\$	543,355	\$	525,341	97%	\$	781,269

#### NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

#### YEAR ENDED JUNE 30, 2014

#### 13. Pension plans (continued):

#### Police and Firefighters Pension Plan (continued):

Funding policy (continued):

#### New Plan:

The City is required to contribute at an actuarially determined amount. Administration costs of the plan are financed through investment earnings of the plan's assets and a load on the Normal Cost.

Schedule of employer contributions:

Year Ended June 30	Annual Required Contributions	Actual Contribution	Percentage Contributed	Net Pension Obligation	
2012	\$ 10,952,987	\$ 10,154,000	93%	\$ 82,900,684	
2013	\$ 11,391,106	\$ 11,391,106	100%	\$ 84,959,714	
2014	\$ 12,386,341	\$ 12,386,341	100%	\$ 87,069,886	

#### Funded status of Plan:

The required supplementary information which follows the notes to the financial statements presents multiyear trend information about whether the actuarial value of New Plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits. Listed below are the details of the funding progress of the New Plan as of July 1, 2014, the date of the latest actuarial valuation.

Actuarial value of assets	\$ 97,220,726
Actuarial accrued liability	\$238,725,116
Unfunded actuarial accrued liability (UAAL)	\$141,504,390
Funded ratio	40.7%
Annual covered payroll	\$ 19,453,527
UAAL as percentage of payroll	727.4%

# NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

# YEAR ENDED JUNE 30, 2014

#### 14. Other postemployment benefits:

#### *Plan description:*

The City provides post-retirement benefits to retired individuals as required by union contracts with City municipal employees, teachers, School department administrators (through age 65), police officers, and firefighters through a single-employer defined benefit plan (OPEB). Benefits include: (1) full health coverage for the retiree and their spouse, and (2) full dental coverage for the retiree and their spouse. The City obtains a biennial actuarial valuation report which can be obtained from the City's Finance Director at City Hall, 137 Roosevelt Avenue, Pawtucket, Rhode Island 02860.

#### Valuation:

An actuarial valuation study of the other postemployment benefits of the City was performed by Sherman Actuarial Services, LLC as of July 1, 2013; the results are based on a discount rate of 4.0%.

#### Covered participants:

At July 1, 2013, membership consisted of:

Active Non-School Department receiving benefits Active School Department receiving benefits Inactive vested members Retired, disabled, beneficiaries and survivors – Non teachers Retired, disabled, beneficiaries and survivors – School Department

#### Funding policy:

The City paid 100% of the amount for medical and dental costs incurred by eligible retirees. Employee contributions are recognized in the period to which the contribution relates. Benefit payments are charged to expense in the period paid.

# NOTES TO BASIC FINANCIAL STATEMENTS (CONTINUED)

# YEAR ENDED JUNE 30, 2014

# 14. Other postemployment benefits (continued):

# Annual OPEB cost and net OPEB obligation:

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan for the past three years and the net OPEB obligation as of June 30, 2012, 2013 and 2014 are as follows:

Year ended June 30,	OPEB cost	% of annual OPEB cost contributed	Net OPEB obligation
2012	<ul> <li>\$ 19,155,825</li> <li>\$ 20,008,292</li> <li>\$ 17,850,863</li> </ul>	68%	\$ 69,854,254
2013		65%	\$ 76,908,776
2014		72%	\$ 81,867,496

Actuarial methods and assumptions:

- The projection of future benefit payments for an ongoing plan involves estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality and the healthcare cost trend. Amounts determined regarding the funded status of the plan and annual required contributions are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future.
- The valuation of the postemployment medical and life insurance benefits is based upon the projected unit credit actuarial cost method. A normal cost (or service cost) is determined for each year of the member's creditable service and is equal to the value of the future expected benefits divided by the total expected number of years of service. The actuarial accrued liability is the accumulated value of prior normal costs.

# NOTES TO FINANCIAL STATEMENTS (CONTINUED)

# YEAR ENDED JUNE 30, 2014

#### 14. Other postemployment benefits (continued):

Actuarial methods and assumptions (continued):

<u>Actuarial cost method</u> – Costs are attributed between past and future service using the projected Unit Credit Cost method. Benefits are attributed ratably to service from date of hire until full eligibility date.

Interest rate/discount rate -4.0% per year, net of investment expenses.

Mortality:

- *Actives* 65% of Post-Retirement Mortality (based on the Employee's Retirement System of Rhode Island report).
- *Retirees* Non-Teachers: 1994 Group Annuity Table set forward one year (based on the Employee's Retirement System of Rhode Island report).
- *Disabled* All but police and fire: Males: 65% of PBGC Tab Va; Females: 100% of PBGC Table Via (based on the Employee's Retirement System of Rhode Island report); police and fire: PBGC Table 11 for males and PBGC Table 12 for females.
- <u>Eligibility for Vested Post-Retirement Medical benefits upon Withdrawal</u> Employees who withdraw from employment and do not retire are ineligible for postretirement benefits even if they are vested in their retirement benefits.

Medical eligibility – Employees: 100%; Spouses: 100%.

<u>Participation rates</u> – 95% of future retirees are assumed to participate in the retiree medical plan. 30% of future school retirees are assumed to participate in the dental plan. 90% of future Public Safety retirees are assumed to participate in the dental plan.

Expenses – Administrative expenses are included in the per capita medical cost assumption.

<u>Eligibility for Benefits</u> – Current employees of the City who retire with a benefit from the Pawtucket Retirement Board, as well as their beneficiaries, and retirees of the City, as well as their beneficiaries and spouses, are eligible for benefits. The spouses of current employees are eligible for benefits if the current employees are covered under the police, fire, and teacher plans.

Medical Benefits – Various medical and dental plans offered by the City to its employees.

<u>Retiree Contributions</u> – Based on date provided by the City. Applicable to teachers only.

#### NOTES TO FINANCIAL STATEMENTS (CONTINUED)

#### YEAR ENDED JUNE 30, 2014

#### 14. Other postemployment benefits (continued):

Funding status and funding progress:

Annual OPEB cost and the net OPEB obligation calculation as of and for the year ended June 30, 2014 are as follows:

Annual required contribution Interest on OPEB Adjustment to annual required contribution		\$ 17,636,868 3,076,351 (2,862,356)
Annual OPEB cost Premiums paid		 17,850,863 (12,892,143)
Increase (decrease) in net OPEB obligation: Governmental activities Business-type activities	\$ 4,887,075 71,645	4,958,720
Net OPEB obligation, beginning of year		 76,908,776
Net OPEB obligation, end of year		\$ 81,867,496

City contributions to the plan for the year ended June 30, 2014 represented 72% of the annual OPEB cost. The difference represents the City's OPEB obligation to the plan and has been accrued as a liability in the government-wide financial statements.

The required supplementary information which follows the notes to the financial statements presents multiyear trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability for benefits. Listed below are the details of the funding progress of the OPEB obligation with a valuation date of July 1, 2013, which is the most recent report available from the actuary who values this plan.

Actuarial value of assets	\$ 0
Actuarial accrued liability	\$ 309,654,000
Unfunded actuarial accrued liability	\$ (309,654,000)
Funded ratio	0%
Annual covered payroll	N/A
UAAL as percentage of payroll	N/A

15. Risk management and contingencies:

#### Litigation:

During the ordinary course of its operations, the City is a party to various claims, legal actions and complaints; it adequately accrues liabilities for losses when they are both probable and can be reasonably estimated.

# NOTES TO FINANCIAL STATEMENTS (CONTINUED)

#### YEAR ENDED JUNE 30, 2014

#### 15. Risk management and contingencies (continued):

#### *Litigation (continued):*

The City is involved in the early stages of litigation with several plaintiffs relating to tax assessment appeals, personal injuries and contract disputes. The outcomes of the cases are not known at this time. Management is rigorously defending the cases and has calculated the range of potential liability, after applying the City's insurance deductible, if the City should not prevail to be between \$-0- and \$1,476,000. As it is not probable that a liability has been incurred, no liability has been recorded in the accompanying financial statements.

#### Grants:

The City has received federal and state grants for specific purposes that are subject to audit by the grantors or their representatives. Such audits could lead to requests for reimbursement to the grantor agency for expenditures disallowed under the terms of the grant. City officials believe such disallowances, if any, would be immaterial.

#### Property and liability insurance:

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors or omissions; and natural disasters. As a result, the City participates in a non-profit, public entity risk pool (Rhode Island Interlocal Risk Management Trust, Inc.) (the Trust) which provides coverage for property and liability claims. Upon joining the Trust, the City signed a participation agreement which outlines the rights and responsibilities of both the Trust and the City. The agreement states that for premiums paid by the City, the Trust will assume financial responsibility for the City's losses up to the maximum amount of insurance purchased, minus the City's deductible amounts. The Trust provides this insurance coverage through a pooled, selfinsurance mechanism which includes reinsurance purchased by the Trust to protect against large, catastrophic claims above the losses the Trust retains internally for payment from the pooled contributions of its members. Under the participation agreement, the City is insured for a maximum of \$4,000,000 per occurrence. Settled claims resulting from these risks have not exceeded the Trust coverage in any of the past three fiscal years. There were no significant reductions in insurance coverage during the year ended June 30, 2014. At June 30, 2014, the Trust's estimated reserves on open claims not subject to coverage amounted to approximately \$1,244,000, which the City could be liable for.

#### NOTES TO FINANCIAL STATEMENTS (CONTINUED)

#### YEAR ENDED JUNE 30, 2014

#### 15. Risk management and contingencies (continued):

#### Self-insurance:

The City maintains an internal service fund for Health/Dental (medical) insurance, which is a cost plus health and dental plan that has a self-insurance mechanism with a stop gap maximum claim amount of \$300,000 per participant.

The claims liability reported in the internal service fund at June 30, 2014 is based on the requirements of GASB Statement Nos. 10 and 30, which require that a liability for estimated claims incurred but not reported be recorded. The amount of claim accrual is based on the ultimate costs of settling the claim, which include past experience data, net of estimated subrogation recoveries. The claim accrual does not include other allocated or unallocated claims adjustment expenses. Billings from the Internal Service Fund to City funds for the fiscal year ended June 30, 2014 were \$32,506,990, which represented \$16,019,393 and \$16,487,597 for City and School Department personnel, respectively. At June 30, 2014, the City has estimated a liability for incurred but not reported claims (IBNR) based on actual claims paid subsequent to year-end but related to claims incurred prior to June 30, 2014. The IBNR liability is included in accounts payable and accrued expenses on the accompanying Internal Service Fund statement of net position, as follows:

	2014
IBNR at June 30, 2013 Claims incurred during the year Claims paid during the year	\$ 1,708,959 33,196,137 (32,916,822)
IBNR at June 30, 2014	\$ 1,988,274

#### NOTES TO REQUIRED SUPPLEMENTARY INFORMATION

#### JUNE 30, 2014

Budget preparation and budgetary basis of accounting:

- In accordance with the City Charter, the Mayor must present to the City Council a recommended annual budget for the operations of all municipal departments prior to the commencement of each fiscal year. The recommended budget must include an appropriation to fund school expenditures in excess of their anticipated revenues as requested by the Superintendent and approved by the School Committee. Estimates of sums expected to become available from federal and state grants for the support of the public schools shall be included in the total requested for school expenditures. The City Council shall appropriate these funds for expenditure by the School Committee, and shall appropriate such additional funds from local tax revenues as may be required to meet the total school budget which the City Council approves. The School Committee shall not have the authority to obligate the City financially beyond the total budgetary amount voted by the City Council. The City Council can change only the total amount of the School Committee's recommended budget. The City Council can increase the total amount of the total budget, as presented by the Mayor, only if it makes provisions for increasing anticipated revenue to match increases in expenditures in the budget.
- The General Fund and the School Unrestricted Fund annual operating budgets are in conformity with the legally enacted budgetary basis. The legally enacted budgetary basis differs from accounting principles generally accepted in the United States of America (U.S. GAAP) in several regards. Budgets are adopted on the modified accrual basis with certain exceptions. Budgetary revenues may include reappropriations from fund equity previously recognized under U.S. GAAP. Budgetary expenditures may include provisions to build fund balance.

Adjustments from the budgetary basis to the U.S. GAAP basis of accounting are as follows:

	Ge	neral Fund
Provision to reserve fund balance	\$	399,019

Budget compliance:

Appropriations in addition to those contained in the annual operating budget require City Council approval. Amendments to the operating budget that do not result in additional appropriations may be made within departments by means of transfer. Transfers made within and outside the departmental level require City Council approval. The level at which the General Fund and School Unrestricted Fund budgeted expenditures may not legally exceed appropriations is at the department level. Unexpended appropriations lapse at fiscal year-end, but unexpended capital and special appropriations have historically been carried forward.

# NOTES TO REQUIRED SUPPLEMENTARY INFORMATION (CONTINUED)

# YEAR ENDED JUNE 30, 2014

The assumptions for the Police and Firefighters Plan are consistent with the 2014 valuation.

The information presented in the required supplementary information was determined as part of the respective actuarial valuations. Additional information as of the latest actuarial valuation follows:

# POLICE AND FIREFIGHTERS PLAN

Valuation date	July 1, 2014
Actuarial cost method	Entry Age Normal Cost Method
Amortization method	Closed
Asset valuation method	Market
Actuarial assumptions: Investment rate of return	7.50% per annum
Projected salary increases	2.0% to 11.0% per annum
Cost-of-living adjustments	3.0% per annum

# NOTES TO REQUIRED SUPPLEMENTARY INFORMATION (CONTINUED)

# YEAR ENDED JUNE 30, 2014

# OPEB PLAN

Valuation date	July 1, 2013
Actuarial cost method	Projected Unit Credit Cost Method
Asset valuation method	Market
Actuarial assumptions: Investment rate of return and discount rate	4% per annum
Participation	All eligible retirees are assumed to elect medical and dental coverage
	Current employees and spouses are assumed to continue the same coverage they have as of the valuation date
Health Care Cost Trend Rates	Medical $-10.0\%$ per year decreasing to an ultimate rate of 5.0% per year; Dental $-8.0\%$ per year decreasing to an ultimate rate of 5.0% per year

SINGLE AUDIT SECTION

# Independent Auditors' Report on Compliance for Each Major Federal <u>Program and Report on Internal Control Over Compliance Required</u> <u>by OMB Circular A-133</u>

The Honorable President and Members of City Council City of Pawtucket, Rhode Island Pawtucket, Rhode Island

#### **Report on Compliance for Each Major Federal Program**

We have audited the compliance of the City of Pawtucket, Rhode Island (the City) with the types of compliance requirements described in the <u>OMB Circular A-133 Compliance Supplement</u> that could have a direct and material effect on the City's major federal programs for the year ended June 30, 2014. The City's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

### Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to its federal programs.

#### Auditors' Responsibility

Our responsibility is to express an opinion on compliance for the City's major federal programs based on our audit of the type of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in <u>Government Auditing Standards</u>, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States*, *Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

## Independent Auditors' Report on Compliance for Each Major Federal Program and Report on Internal Control Over Compliance Required by OMB Circular A-133 (Continued)

Honorable President and Members of City Council City of Pawtucket, Rhode Island

### Auditors' Responsibility (Continued)

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

#### Basis for Qualified Opinion on National School Lunch Program

As described in the accompanying schedule of findings and questioned costs, the City did not comply with the requirements regarding eligibility that are applicable to its National School Lunch Program as described in Item 2014-002. Compliance with such requirements is necessary, in our opinion, for the City to comply with the requirements applicable to that program.

#### Qualified Opinion on National School Lunch Program

In our opinion, except for the noncompliance described in the Basis for Qualified Opinion paragraph, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on the National School Lunch Program for the year ended June 30, 2014.

#### Unmodified Opinion on Each of the Other Major Federal Programs

In our opinion, except for the noncompliance described in the Basis for Qualified Opinion paragraph, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its other major federal programs identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs for the year ended June 30, 2014.

The City's response to the compliance finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The City's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

### Independent Auditors' Report on Compliance for Each Major Federal Program and Report on Internal Control Over Compliance Required by OMB Circular A-133 (Continued)

Honorable President and Members of City Council City of Pawtucket, Rhode Island

#### **Report on Internal Control Over Compliance**

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on each of its major federal programs to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this report is not suitable for any other purpose.

## NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

## YEAR ENDED JUNE 30, 2014

1. Summary of significant accounting policies:

The accompanying schedule of expenditures of federal awards includes the federal grant activity of the City of Pawtucket, Rhode Island (the City) and is presented on the modified accrual basis of accounting. The information in this schedule is presented in accordance with the requirements of OMB Circular A-133, <u>Audits of States, Local Governments, and Non-Profit Organizations;</u> therefore, some amounts presented in this schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements.

2. Revolving loan program:

The City has the following loans receivable balance at June 30, 2014:

Program Title	Federal CFDA Number	Amount Outstanding
Community Development Block Grant/Entitlement Grants – Revolving Loan	14.218	\$ 2,452,317

## 3. Matching requirements:

Certain federal programs require that the City contribute non-federal funds (matching funds) to support the federally-funded programs. The City has complied with the matching requirements. The expenditure of non-federal matching funds is not included on this Schedule.

Independent Auditors' Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with Government Auditing Standards

The Honorable President and Members of the City Council City of Pawtucket, Rhode Island Pawtucket, Rhode Island

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in <u>Government Auditing Standards</u> issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the discretely presented component unit, each major fund, and the aggregate remaining fund information of the City of Pawtucket, Rhode Island (the City), and the related notes to the financial statements, which comprise the City's basic financial statements as of and for the year ended June 30, 2014, and have issued our report thereon dated January 7, 2015. Our report includes a reference to other auditors who audited the financial statements of the Pawtucket Business Development Corporation, a discretely presented component unit, as described in our report on the City's financial statements. This report does not include the results of the other auditors' testing of internal control over financial reporting or compliance and other matters that are reported on separately by those auditors.

#### **Internal Control Over Financial Reporting**

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the City's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

### <u>Independent Auditors' Report on Internal Control Over Financial Reporting and</u> <u>on Compliance and Other Matters Based on an Audit of Financial Statements</u> <u>Performed in Accordance with Government Auditing Standards (Continued)</u>

The Honorable President and Members of the City Council City of Pawtucket, Rhode Island

#### **Internal Control Over Financial Reporting (Continued)**

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify a deficiency in internal control, described in the accompanying schedule of findings and questioned costs as Item 2014-001, that we consider to be a significant deficiency.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under <u>Government Auditing Standards</u>.

#### The City's Response to the Finding

The City's response to the finding identified in our audit is described in the accompanying schedule of findings and questioned costs. The City's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

#### **Purpose of This Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with <u>Government Auditing Standards</u> in considering the City's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

# SCHEDULE OF FINDINGS AND QUESTIONED COSTS (CONTINUED)

# YEAR ENDED JUNE 30, 2014

# **Section II – Financial Statement Findings**

## 2014-001 Claims and Judgments:

## Criteria:

The recording of claims and judgments in accordance with accounting principles generally accepted in the United States of America (GAAP) requires an accrual of a liability in the government-wide financial statements when a loss is probable and the amount can be reasonably estimated, and in the fund financial statements when the amounts are due and payable.

## Condition:

The City's recording of claims and judgments is not in accordance with GAAP, resulting in an overstatement of accrued expenses at June 30, 2014 in the amounts of \$276,335 and \$524,835 on the government-wide statement of net position and the General Fund balance sheet, respectively.

## Effect:

At June 30, 2014, accrued expenses are overstated by \$276,335 and \$524,835 on the government-wide statement of net position and the General Fund balance sheet, respectively.

#### Cause:

The City utilizes the accrued legal liability to ensure it reserves for potential legal claims payable, even though the claim may not meet the criteria for accrual under GAAP.

#### Recommendation:

The City should consider the use of commitments on fund balance if it wishes to set aside fund balance for future potential losses that do not meet the criteria for accrual under GAAP.

#### Views of Responsible Officials and Planned Corrective Actions:

The City's current policy for recording claims and judgments, which records a "reserve" or liability for those pending lawsuits that the City may ultimately have to pay after the end of a fiscal year, was created based on the recommendation of a previous auditor. The City will consider modifying its current policy to ensure compliance with GAAP and consider the use of commitments on fund balance to set aside fund balance for future potential losses that do not meet the criteria for accrual under GAAP.

## SCHEDULE OF FINDINGS AND QUESTIONED COSTS (CONTINUED)

## YEAR ENDED JUNE 30, 2014

## Section III – Federal Award Findings and Questioned Costs

#### 2014-002 National School Lunch Program (CFDA # 10.555):

#### Criteria:

Students wishing to be considered for eligibility for free or reduced food services must complete an application identifying household income and submit it to the Pawtucket School Department. Household income is then used to determine whether the student is eligible for free or reduced lunch.

## Condition:

The School Department receives federal funding to assist students with providing free and reduced school lunch and breakfast. At the beginning of the school year, the Pawtucket School Department distributes applications to students to apply for free or reduced food services. These applications are received and processed by the Pawtucket School Department to determine which students are eligible to receive free or reduced lunch. During our audit, we noted that the list of students receiving free or reduced food services had some inaccuracies and some of the applications selected for testing were missing and thus unavailable for testing eligibility. In addition, we noted that one student was not receiving the proper benefit based on the household income noted on the application.

#### Effect:

Ineligible students may be receiving free or reduced food services, or the benefits received by a student may not be the proper benefits.

#### Cause:

The application process and related recordkeeping is centralized within the food service department, however management does not perform an independent review of these procedures.

#### Recommendation:

We recommend that management perform a periodic review in which students appearing on the census which are categorized as "directly certified" are cross-referenced to the electronic listing of such students to ensure the listing is complete and accurate. Further, management should also review the household income reported on applications to ensure that classification as free or reduced is appropriate based on documented household income.

## SCHEDULE OF FINDINGS AND QUESTIONED COSTS (CONTINUED)

## YEAR ENDED JUNE 30, 2014

## Section III – Federal Award Findings and Questioned Costs (Continued)

#### 2014-002 National School Lunch Program (CFDA # 10.555) (continued):

Views of Responsible Officials and Planned Corrective Actions:

Beginning in fiscal year 2015, the Grants and Resource Accounting Manager will annually review applications, which are based on income data provided by parents/guardians, to be sure students are correctly classified as being eligible to receive free or reduced food service. In addition, the Pawtucket School Department will work to accommodate the distinction between direct certifications and those who apply for free or reduced lunch, as the current system does not differentiate between the two.

City Hall, 137 Roosevelt Ave Pawtucket, RI 02860 (401) 728-0500

#### **CORRECTIVE ACTION PLAN**

Name of auditee: Audit Firm:	City of Pawtucket, Rhode Island LGC&D LLP
Audit Period:	Year ended June 30, 2014
Prepared by:	Joanna L'Heureux, CPA

Position:Director of FinanceTelephone number:401-728-0500

#### 2014-001 Claims and Judgments:

#### Condition:

The City's recording of claims and judgments is not in accordance with GAAP, resulting in an overstatement of accrued expenses at June 30, 2014 in the amounts of \$276,335 and \$524,835 on the government-wide statement of net position and the General Fund balance sheet, respectively.

#### Views of Responsible Officials and Planned Corrective Actions:

The City will consider modifying its current policy to ensure compliance with GAAP and consider the use of commitments on fund balance to set aside fund balance for future potential losses that do not meet the criteria for accrual under GAAP.

#### 2014-002 National School Lunch Program (CFDA # 10.555):

#### Condition:

During our audit, we noted that the list of students receiving free or reduced food services had some inaccuracies and some of the applications selected for testing were missing and thus unavailable for testing eligibility. In addition, we noted that one student was not receiving the proper benefit based on household income. The results of our testing identified that ineligible students may be receiving free or reduced food services.

#### Views of Responsible Officials and Planned Corrective Actions:

Beginning in fiscal year 2015, the Grants and Resource Accounting Manager will annually review applications which are based on income data provided by parents/guardians to be sure they are correctly classified as free or reduced. In addition, the School Department will work to accommodate the distinction between direct certifications and those who apply for free or reduced lunch, as the system currently does not differentiate between the two.

# SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS

## YEAR ENDED JUNE 30, 2014

## Identifying Number:

Finding 2013-005 National School Lunch Program (CFDA # 10.555)

Condition:

The documentation supporting eligibility for participation in the program was not being consistently maintained in the School Department's files.

Current status:

Finding repeated; see Item 2014-002 on the accompanying schedule of findings and questioned costs.
